

# Resistance Thermometer for Cold Junction Compensation

## H-CJC-Pt100

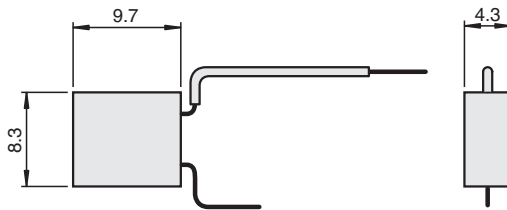

- For Cold Junction Compensation of HiC2081
- For HiC Termination Boards
- Packaging unit: 8 pieces

Resistance thermometer for cold junction compensation for H-System termination boards

### Function

The resistance thermometer is suitable for H-System applications.  
The resistance thermometer is available as an optional accessory.

### Dimensions

### Technical Data

<b>General specifications</b>	
Type	resistance thermometer (RTD) Pt100
<b>Electrical specifications</b>	
Resistor	100 Ω
<b>Mechanical specifications</b>	
Mass	approx. 20 g
Dimensions	8.3 x 9.7 x 4.3 mm (0.33 x 0.38 x 0.17 inch)
