

RFID read/write device

IUH-F190-V1-FR2-14

- Flexible UHF read/write device with medium detection range
- Ready-made PLC function blocks designed for quick and easy system integration
- Compact and robust housing for harsh industrial environments
- Switchable antenna polarization guarantees reliable tag detection and enhances process flow
- For connection to IDENTControl evaluation unit
- Multi-tag reading increases productivity

UHF RFID read/write device for IDENTControl, Singapore

Function

The compact IUH-F190-V1-FR2-14 RFID read/write head operates in the UHF frequency range and is optimized for use in industrial applications involving medium distances. The device reads and writes passive tags in line with EPC Generation 2 (ISO/IEC 18000-63). The RFID read/write head can be used in Singapore. The RFID read/write head is compliant with the relevant transmission regulations.

Wide range of options supported for filtering data. The RFID read/write head is connected to the IDENTControl interface using an M12 connector. The user can monitor the status of the RFID read/write head using the integrated LEDs.

The RFID read/write head has a typical detection range of around 2 meters; this range is determined by the tag used and can be adjusted by configuring the transmission power. Other influencing factors include the setup and installation of the specific application and the surrounding materials, particularly metal. The read and write distances for the relevant tag, which are detailed separately, have been established in a test laboratory under ideal conditions. For the actual read and write distances under real conditions, the combination of RFID read/write head and tag must be tested in the desired application.

This product is a wireless device and may be operated only in the country for which a transmission license exists. Information regarding transmission licenses can be found on the datasheet for the product. If a product is released to a customer in a country for which there is no transmission license, the product may be operated only in the country for which a transmission license exists.

If a product does not correspond to the legal requirements in force in the EU but is released to a purchaser within the EU, the product is intended for use solely in the destination country of the end customer outside of the EU for which a transmission license exists. The product may therefore under no circumstances be used directly by the purchaser or released to third parties for the purpose of distribution, application or use on the market within the EU as part of a commercial activity.

In the event of an infringement, the purchaser is obliged to indemnify the supplier against any resulting damages, costs, penalty payments and other expenses.

Application

This product is a wireless device and may be operated only in the country for which a transmission license exists. Information regarding transmission licenses can be found on the datasheet for the product. If a product is released to a customer in a country for which there is no transmission license, the product may be operated only in the country for which a transmission license exists.

If a product does not correspond to the legal requirements in force in the EU but is released to a purchaser within the EU, the product is intended for use solely in the destination country of the end customer outside of the EU for which a transmission license exists. The product may therefore under no circumstances be used directly by the purchaser or released to third parties for the purpose of distribution, application or use on the market within the EU as part of a commercial activity.

Dimensions

Technical Data

General specifications

Operating frequency	920 ... 925 MHz: Singapore Transmission licenses for other countries on request
Emitted power	3 ... 500 mW ERP adjustable
MTBF	105 a (Operation at +40 °C)

Indicators/operating means

LED green	Power on
LED yellow	Read/write operation successful
LED blue	Transmission mode

Electrical specifications

Current consumption	≤ 450 mA
Power consumption	P_0 ≤ 9 W
Supply	from the IDENTControl
Surge protection	category 2

Standard conformity

Degree of protection	EN 60529
RFID	ISO/IEC 18000-63

Ambient conditions

Classification	Environmental condition A (controlled environment)
Ambient temperature	-20 ... 70 °C (-4 ... 158 °F) (Operation with nontransmission periods, adjustable) -20 ... 60 °C (-4 ... 140 °F) (Continuous transmission mode)
Storage temperature	-40 ... 85 °C (-40 ... 185 °F)
Pollution degree	2

Mechanical specifications

Degree of protection	IP67
Connection	connector M12 x 1
Material	
Housing	PA 6.6
Base	diecast aluminum
Mass	860 g
Dimensions	
Height	63 mm
Width	112 mm
Length	114 mm

Connection
