

## Control Stations Division 2, Stainless Steel

### SR.CS2\*

- For use in North America
- Stainless Steel enclosure
- Certified for Class I, Division 2 hazardous areas
- Up to 107 operators per control station
- 10 enclosure size options
- Return Flange Sealing provides Drain Channel
- Customizable configuration of operators, cable entry quantities and cable gland types as per specification
- Customizable configuration of gland plates, ground bolt and hinges as per specification
- Option for vertical or horizontal mounting provides high flexibility
- Up to 4 gland plates
- Wide range of labels and accessories available

## Control Stations Division 2, Stainless Steel

### Function

The SR series is a flexible range of control stations for use in Class I, Division 2. The devices are fully customizable and as such will meet the needs of user specifications by being supplied with accessories such as quarter turn locks, mounting brackets or gland plates. A comprehensive range of operating elements, contact blocks, terminals, entry devices and enclosure accessories are available to ensure each configuration will exactly meet any application requirements. Enclosures are manufactured from brushed AISI 316L stainless steel and all fixings are manufactured from A4 grade stainless steel as standard to provide excellent tarnish and corrosion resistance. Your solution can be mounted in portrait or landscape orientation in temperatures ranging from -40°C up to +55 °C. Endless configurations can be confirmed by your local Pepperl+Fuchs office.

## Operating Elements Configuration

Example based on SR.CS2.38.48.22.B

### Notes:

The use of label holders depends on operating elements configuration

The position of the grounding bolt can vary depending on configuration

All NC contacts have a direct opening action for emergency stop functions

For further configurations please contact Pepperl+Fuchs

For types of cable glands and combinations of different gland sizes please contact Pepperl+Fuchs
